

Which Help Do I Need?

Which free service fits what the person actually has.

Start with what they actually have. Someone who has already lost money needs local support first, not a checker.

What you have, and what to do next

WHAT SOMEONE HAS	SUGGESTED NEXT STEP
A suspicious email	InboxSpotter, at inboxspotter.com
A suspicious text or chat message	CyberScout, at cyberscout.chat
A suspicious link or website	The CSRF checker, at cybersecurityreach.org/check
Wants to look up a known scam pattern	ScamArchive, at scamarchive.org
Wants browser protection	KnownGood
Lost money or shared sensitive information	Your organization's established recovery and reporting pathway, first

How to use this page

- Do not send everyone to the same place.
- Lost money or shared ID documents? Local support and reporting come first.
- Check watchout.report before a workshop or a newsletter.

Draft note for CSRF review: confirm the public address for KnownGood, and confirm CyberScout and the CSRF checker are the addresses we want partners printing.

For scam warnings, go to
watchout.report
